Dear Sir or Madam: I first off wish to express to you how much I benefit from listening to XM Satellite Radio. I drive quite a bit for my job and traditional radio is not an option in some of the areas in which I travel. XM is the only option for me in these areas. Also satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve.

Sincerely,

Scott Herman
